- c) Referred to a note Colonel Grogan had given him stating that a news-paperman had informed Colonel Grogan that reports were circulating in certain newspaper circles in Washington to the effect that CIA was backing a pro-Communist candidate in the forthcoming Guatemalan elections. Mr. Wisner observed that this is obviously a part of Ydigoras' extensive smear campaign and that he plans to prepare a paper on this. It was agreed that efforts should be made to find out who in U.S. news circles is assisting Ydigoras to spread this type of smear material.
- d) Referred to a memorandum prepared by Colonel White, and comments appended thereto prepared by Mr. Kirkpatrick, pertaining to the forthcoming trip which Mr. Macy of the Bureau of the Budget plans to make to the Far East. It was noted that Macy's plans call for him to delve quite deeply into CIA operational details and a considerable discussion ensued as to the advisability of this. Mr. Kirkpatrick pointed out that the Bureau of the Budget, under its Management and Review Authority, certainly is authorized to go into this type of study if it so desires. He expressed the belief that if we did not wish to be completely free and open with the Bureau, we would have to have the President instruct the Bureau of the Budget as to limitations beyond which he did not wish the Bureau to go in examining our operations.

The Director reiterated his position expressed at the last Deputies' meeting that no further comments from him were appropriate at this time. Instead, it was his view that Dr. Baker should submit his final report to the President and that the President should then request comments from the CIA and other appropriate agencies.
